ANKIT KUMAR

Electronics and Communication Engineering Student
+91-7378026296 | 24bec018@nith.ac.in | Hamirpur, HP, India

EDUCATION

National Institute of Technology, Hamirpur **2024 - Present**
Bachelor of Technology in Electronics and Communication Engineering | Roll No.: 24bec018
S.G.R. Public School **2023**
Higher Secondary Certificate (Class XII) - CBSE | Percentage: 77.2%
S.G.R. Public School **2021**
Secondary School Certificate (Class X) - CBSE | Percentage: 92.8%

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript
Web: React.js, Flask, HTML5, CSS3
ML/Data: Scikit-learn, Random Forest, NumPy, Pandas
Tools: Git, GitHub, VS Code, Netlify
DSA: Arrays, Trees, Graphs, Dynamic Programming, Sorting
PS: 650+ problems (GFG: 280+, LeetCode: 200+, CN: 130+)

CODING PROFILES

LeetCode: Solved more than 200 problems
GeeksforGeeks: Solved more than 280 problems
Coding Ninjas: Solved more than 135 problems

PROJECTS

Wine Quality Prediction System **2025**
- Built full-stack ML web app predicting wine quality using 11 physicochemical features with Random Forest classifier on dataset
- Developed Flask REST API backend with POST endpoints and integrated responsive frontend for real-time predictions
- **Tech Stack:** Python, Flask, Scikit-learn, Random Forest, HTML, CSS, JavaScript, NumPy, Pandas

Personal Portfolio Website **2024**
- Designed modern, responsive portfolio with React.js
- Implemented project showcase, skills display, and EmailJS-powered contact form without backend server
- Deployed on Netlify with CI/CD pipeline
- **Tech Stack:** React.js, JavaScript, CSS, EmailJS, Netlify, Git

EXPERIENCE AND ACHIEVEMENTS

Breakout Bridge 3.0 - Technical Competition **August 2024**
National Institute of Technology, Hamirpur
- Participated in inter-college technical hackathon featuring algorithm design and system development challenges

Robo Quest 2.0 - Robotics Competition **October 2024**
National Institute of Technology, Hamirpur
- Engaged in robotics competition involving circuit design, embedded systems, and hardware-software integration

CORE COMPETENCIES

Technical: Full-Stack Development, Machine Learning, Algorithm Design
Problem Solving: Data Structures, Algorithms
Soft Skills: Communication, Team Collaboration, Time Management, Analytical Thinking, Leadership
